Allowable Subject Matter

1. Claims 1-6, 8-26 and 28-30 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record, neither anticipates nor renders obvious the following limitations as claimed:

[Claim 1]: A system for automatically linking a digital representation comprising "... a communication device to communicate with the database, wherein when the identification data is transmitted to the database, a network address for an annotation provider associated with the information tag device is transmitted from the database to the communication device; and a program to be executed by the communication device, the program to enable communication with the annotation provider to obtain an annotation associated with the information tag device and to annotate the digital representation of the scene with the annotation".

[Claim 10]: This claim is a method claim corresponding to apparatus claim 1.

[Claim 17]: An apparatus for automatically annotating a digital representation, comprising "... a communication device to communicate with a database, wherein the database is utilized to store information for the identification tag device, and when identification data is transmitted to the database, information for an annotation provider is transmitted from the database to the communication device, wherein the information includes a network address of the annotation provider of annotations for the object".

[Claim 26]: Reasons for allowance of this claim are similar to claim 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
